REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Claims 13-23 are allowed over the prior art of record. Current invention teaches a switching device for a multi-step transmission having a switching means for actuating switching elements in the main transmission part and switching means for actuating switching elements in the auxiliary-section transmission, and the switching means having a clearance in which can be moved one element of the switching means that actuates the switching element during a selection process for choosing a desired switching element in direction to a switching operation. Above claimed in combination with the claimed limitations of the base claim are neither disclosed nor suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

EXAMINER'S COMMENTS

Election/Restrictions

2. Claims 13-23 are allowable. The restriction requirement for Group I and II species, as set forth in the Office action mailed on 6/15/2007, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all

the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.
